Detailed description of
professional background

With over 20 years of leadership in IT, I excel in transforming technology landscapes to drive company growth and efficiency. My expertise spans infrastructure, networks, systems, and strategic program management, coupled with a deep understanding of business processes and team development.

Accomplishments

- Core leadership team guiding the company's growth
- Managed Information Technology Budget of \$750,000
- Incident command for cyber security incidents
- Managed a digital-first initiative focused on implementing transformational collaboration technologies such as Microsoft O365, Teams, Teams Phone, SD-WAN,
- Formulated IT policies, guidelines, standards, and procedures to use technology and data resources efficiently
- Moved satellite office locations, expanded office footprints, and opened and closed offices
- IT Integration in Mergers, Acquisitions, and Divestitures
- Sponsored cloud-based architectural engineering and construction software to eliminate VPNs
- Relocated the main headquarters to 32k square feet of leased office space and many satellite office moves, designing the Data Centers
- Project-managed implantation of VMware ESXi, VCenter, and HP Nimble storage area network
